## About us

**J. V. GOKAL CHARITY TRUST (JVGCT)** is a “not-for-profit”, public charitable trust registered within the provisions of Bombay Public Trust Act, 1950. The Trust is a national level organisation aiming to reach out to the underprivileged and needy communities by providing them educational opportunities and access to basic healthcare facilities.

Since inception, organisation works with the values such as trust, devotion and compassion for the communities it serve. **JVGCT** is working across Gujarat, Maharashtra, Manipur, Nagaland, Odisha, Tamil Nadu and West Bengal through its Healthcare, Education and Community Development projects.

### Vision

To work as a catalyst for bringing about sustainable change in the lives of the underprivileged and needy through healthcare and education.

### Mission

To identify and work with the economically and socially disadvantaged communities, by providing them opportunity to enjoy healthy and sustainable quality of life through healthcare and education.

### Objectives

- To provide basic health care services.
- To provide support for formal & vocational education to the underprivileged and needy.
- To promote community development activities and programs.

Message from Trustees

Basic healthcare facilities are inapproachable provision for larger population in India, because of this they remain unhealthy thus unproductive. Unhealthy life affects their family, community and also the nation by large.

It is our firm believe that, basic healthcare must be provided to the underprivileged, which will support them to live healthy and enjoy life. **J. V. Gokal Charity Trust (JVGCT)** is committed towards enabling these meaningful changes, to transform the lives especially those challenged by limited means. Healthcare being the core area of interventions, **JVGCT** is collectively putting efforts to reach needy and underprivileged through low cost primary healthcare delivery model, where one can avail quality healthcare at affordable price in their community. Later replicating this where ever needed.

Programs envisioned and implemented by us across India have yielded positive impact on the lives of many and **JVGCT** shall continue to engage with the disadvantaged through targeted intervention in the fields of healthcare, education and community development. We are sure, that these efforts shall help our country to see results in overall development and empowerment of underprivileged.

We would like to thank all associate organisations and supporters for helping us to reach many. We hope that, we shall progress every day for a better tomorrow.

We extend our best wishes to all!

Trustees  
**J. V. Gokal Charity Trust**

## HEALTH CARE

### Mobile Medical / Health Unit Project (MMU/MHU)

MMU / MHU project focuses on providing a wide range of promotive, preventive and curative healthcare services at doorstep. **J. V. Gokal Charity Trust** aims to reach out to the underprivileged communities, especially in the rural areas which lack basic healthcare facility. For addressing their healthcare needs, **JVGCT** has initiated “**Mobile Healthcare Project**”.

Our concept of “Community Based Healthcare Delivery Model”, envisages an efficient & cost effective healthcare delivery system for rural and remote geographies. It aspires for reaching self-sustainability through active community participation and replacement of cost through linkages.

Quality services are provided by team of doctor, public health nurse or trained health attendant, a social worker or community mobiliser. Apart from general health checkup, we also organise health camps for school children and speciality camps for eye care and other illnesses.

Many health professionals volunteer at our various mobile clinic sites. We welcome professionals and volunteers to come forward for such initiatives.

## HEALTH CARE

### Mobile Medical / Health Unit Project (MMU/MHU) ...

Each MMU/MHU visits three to four villages or hamlets in a day. Patients are provided with doctor's consultation, medications and nutritional supplements at no cost to the patient. Promotion of health seeking behaviour, safe motherhood, vaccination, personal hygiene, balanced diet and awareness about various communicable and non-communicable diseases are done through this health care delivery system. More than 90,000 people are benefitted from our MMU/MHUs.

We are running **Six** MMU/MHUs at...

• **Lonavala, Dist. Pune** • **Talegaon, Dist. Pune** • **Talasari, Dist. Palghar**  
Funded by L & T Public Charitable Trust

• **Tara, Dist. Raigad**  
In association with Yusuf Meherally Centre

• **Jambhulpada, Dist. Raigad**  
Funded by Mathura Foundation

• **Navapur, Dist. Nandurbar**  
In association with Aashray-Durg

HEALTH CARE

VISUALS

Pathology Laboratories

Early diagnosis plays key role in better treatment and help patients for faster recovery. **J. V. Gokal Charity Trust** is trying to help needy by providing such services and with this motive we have launched fully equipped pathology laboratories at three locations. These laboratories are manned with a team of qualified Pathologists, Doctors, Laboratory Technicians & Laboratory Attendants. Patients avail benefit of these labs at highly subsidised rate as compared to other pathology laboratories.

Currently we have laboratories at following locations;

- 1. Yusuf Meherally Centre (YMC) Hospital at Tara, District: Raigad, Maharashtra.
- 2. S. S. Borda Hospital, Bhubaneswar, Odisha.
- 3. JVGCT'S In-TOUCH Health Science Centre, Mao, District: Senapati, Manipur

More than 4000 people have benefitted in the FY 2017 - 18

**“Jagjivan” Low Cost Surgery Centre**

**J. V. Gokal Charity Trust** in association with **“Medicare Surgical and Dental Hospital”,** Nandurbar, Maharashtra have started **“Jagjivan Low Cost Surgery Centre”,** in 2014.

**JVGCT** is working with the vision to offer affordable surgical treatment to the patients those who come from lower socio-economic strata. Majority of the population residing in this project area (about 70%) belong to tribal community. Many of them remain untreated due to their poor financial condition. Medicines and surgical supplies (pre-operative, operative, post-operative) are provided to them by **JVGCT**.

**About 450 individuals have benefitted by this project during FY 2017 - 18**

## HEALTH CARE

### Arun Jagjivan Gokal Institute of Community Ophthalmology (AJGICO)

Arun Jagjivan Gokal Institute of Community Ophthalmology is located in the premises of S. S. Borda Hospital, Bhubaneswar. Care for various eye illness and control of preventable blindness are main focus areas of the project. Every month, more than Five Hundred Cataract surgeries are conducted at this institute. These surgeries are done free of cost to the patients. A team of dedicated ophthalmic surgeons and support staff relentlessly work towards this cause. The institute also conducts eye screening camps routinely in schools and slums of Bhubaneswar.

AJGICO is on the path of expanding its reach by replicating this model at Paradeep Port. The focal point here is on Dock, Industrial Workers, Truckers and also local communities. Our team participate in various government programs related to blindness control. This project is implemented in association with Sri Sri Parama Premamaya Purusottam Trust, Shushrusha Charitable Trust, Vision Foundation and Sight Savers.

**Total Surgeries conducted are 2112 in the FY 2017 - 18.**

## HEALTH CARE

### Primary Eye Care Centres, Odisha

Arun Jagjivan Gokal Institute of Community Ophthalmology (AJGICO) runs **Six** Primary Eye Care Centres in Khurda, Puri and Jagatsinghpur districts of Odisha. This project is undertaken with the aim of reaching out to communities residing in rural area.

Every week, a team consisting of Ophthalmologist, Ophthalmic Assistant, Nurse and Support Staff from AJGICO visit these Primary Eye Care Centres. Patients are screened for eye illness and then brought to the hospital at Bhubaneswar for further treatment. After treatment, they are observed for a day and dropped back to their respective places. Transportation, accommodation, food and treatment are provided at no cost to the patient.

**Annually more than 18000 patients are screened through these centres.**

HEALTH CARE

**JVGCT's InTOUCH Health Science Centres**  
Mao and National Games Village; Imphal, Manipur.

**JVGCT** has designed these health science centres as affordable, low cost and self-sustaining healthcare delivery model for rural and urban population. Through these centres, we provide a comprehensive range of primary healthcare services to the underserved. The doctor's consultation, diagnostic laboratory services and medicines through pharmacy are given to the patients at subsidised and affordable cost.

**Clinic at Mao**  
Due to hilly terrain, accessing basic healthcare facilities itself is a challenge; hence **JVGCT** launched its first primary health centre at Mao. This project serves community residing in **Twenty Five** villages around Mao.

**Clinic at Imphal**  
In association with **Mary Kom Regional Boxing Foundation**, **JVGCT**, have started it's second health science centre in Imphal. This centre caters to more than 1000 families residing in the National Games Village and also to the inmates of **Mary Kom Boxing Academy**.

Both projects are implemented in association with '**Integrated Tribal Organisation for Upliftment Communication & Health**' (InTOUCH).

## HEALTH CARE

### Maternal and Child Health (MCH) Project

Talasari, Dist. Palghar (Maharashtra)

This project is designed to address key issues related to safe motherhood and malnutrition in remote tribal villages of Talasari block, Palghar district in Maharashtra. **JVGCT** with support from **L & T Public Charitable Trust** has initiated this project which aims to improve maternal & child health indicators by involving multiple stakeholders like **Accredited Social Health Activist (ASHA), Auxiliary Nurse Mid-Wife (ANM), Anganwadi Workers, School Teachers, Mothers, Adolescence, Community Leaders and Healthcare Professionals (public/private healthcare facilities)**. Project team focus in bringing out behaviour change of the community by methods like one to one counseling, conducting awareness sessions by use of flip charts, presentations, videos and strengthening healthcare system by Capacity Building of Healthcare Professionals.

#### Objectives of the project are as follows

- Increase Institutional Deliveries.
- Increase Immunisation Coverage of children under 5 years of age & Ante Natal Cases.
- Improve Nutritional Status of SAM (Severe Acute Malnourished) and MAM (Moderate Acute Malnourished) children.
- Sensitise Adolescence towards Family Life Education.

This project also facilitates optimal utilisation of the available health infrastructure.

### Involvement in Stop TB Initiative

Mao, Manipur

Stop TB partnership is a roadmap for accelerating impact on TB epidemic and to reach target of the WHO's End TB Strategy. **JVGCT** has joined hands with The Union (International NGO), Government of India towards fighting TB in the rural & hilly region of Mao, Manipur.

#### Orientation by The Union

The Union and District Tuberculosis Office (DTO), Senapati, conducted basic orientation program on TB, technical modalities, available Government Schemes & facilities. The objective of this one day orientation was to build capacity (knowledge, skills, and attitude) of the staff deployed at **JVGCT's** InTouch Health Science Centre, ASHA workers and health facilitators for better implementation of the project in targeted geographies.

#### Training for Designated Microscopic Centre (DMC)

Technical Experts from District TB Control Office conducted training for **JVGCT's** InTouch Health Science Centre. Trainees were briefed about the operations of DMC and various methods used for diagnosis of TB.

#### Launch of Designated Microscopic Centre

Deputy Commissioner - District Senapati, State TB Officer and DTO launched DMC-cum-DOT (Designated Microscopic Center and Directly Observed Treatment) at **JVGCT's** InTouch Health Science Centre.

#### TB Day Observation, Talasari, Maharashtra

24<sup>th</sup> March is observed as World TB Day. **JVGCT** in association with Dayanand School of Nursing, Talasari conducted rally to create awareness about TB.

EDUCATION

**Nilam Arun Gokal Academic Library,**  
Punanamei, Manipur

**“ Libraries are the foundation for learning!”** - Mark Davis

Education for underprivileged being one of the core objective of **J. V. Gokal Charity Trust**, we have identified Mao as a much needed area for intervention. For getting quality education, students from Mao hills need to travel to far off places like Imphal and Kohima. Lack of proper educational infrastructure in the vicinity have led many families to drop their children’s education.

**JVGCT** has set up Nilam Arun Gokal Academic Library at Asufu Christian Institute campus, Punaname. This library was inaugurated by **Padma Bhushan Smt. MC Mary Kom** in 2015. Since its inception, it has helped many students and teaching staff with ready availability of academic and reference books. This library is managed by a full time librarian and a caretaker.

**More than 400 students & teachers are benefitted by this library.**

EDUCATION

**Nilam Arun Gokal Digital Academic Library,**  
Kariapatti, Tamil Nadu.

The digital library cum smart class room initiative undertaken by **J. V. Gokal Charity Trust** in association with St. Mary's Matriculation School, is located in the rural area of Kariapatti, Tamil Nadu. The smart class is equipped with latest Hi-Tech Digital Board which helps the children to view 3D images and learn from more realistic visuals and diagrams. This smart class initiative have helped the students improve their academic grades and school attendance.

**Every year more than 800 students get the benefit of this project.**

## EDUCATION

### Skill Development (Computer) Training Centre, Punanamei, Manipur

**J. V. Gokal Charity Trust** with support from **Radiant (International) Pvt. Ltd.** has set-up a computer training centre at Punanamei village. This centre is equipped with Twenty latest configured computers. Project is aimed to prepare youths for their employment, as it is made mandatory by the government to have computer skills. ACI's students and youths from surrounding villages are benefitted by this computer training centre.

EDUCATION

**Ophthalmic Clinical Assistant Training Course**

Bhubaneswar, Odisha

**J. V. Gokal Charity Trust** has started two year duration Training Course of Clinical Assistant in Community Ophthalmology at **Arun Jagjivan Gokal Institute of Community Ophthalmology**. This is aimed for creating skilled ophthalmic clinical professionals for our Eye Health Facilities, as well as the community. Every year we train Ten students in community eye care by giving them in depth knowledge. We offer theoretical, practical and hands on experience for every students. After successful completion of the course, these students are absorbed by various eye care institutions and ophthalmologist for their clinics.

This Course is coordinated by Shushrusha Charitable Trust at S. S. Borda Hospital, Bhubaneswar with support from Sri Sri Parama Premamaya Purusottam Trust.

EDUCATION

**Medical Attendant Certificate Course,**  
Kohima, Nagaland

Professionally skilled personals are the necessity for quality services and lack of them in health care system is today's major concern worldwide. To reduce this gap, Oking Hospital has started '**Medical Attendant Certificate Course**' of two years duration. This course enable students in attaining knowledge of primary healthcare and first aid. About Twenty girls from remote areas of Nagaland are trained annually. After completion of this course, they get employment in government healthcare system as Village Health Nurse, private hospitals and other healthcare facilities. **JVGC** supports this course by various means. We also encourage these girls to go back to their respective villages and help community by providing primary healthcare.

EDUCATION

**ACI' Jagjivan Sports Academy,**  
Punanamei, Manipur

This is the first Sports Academy in the hilly region of Manipur, imparting professional training in football. **JVGCT** initiated this project in association with **Asufu Christian Institute**. Every year more than fifty students are trained at **ACI's Jagjivan Sports Academy**. The trainees for this academy are selected based on stringent selection process, through which the aspiring youths from near by colleges are admitted. These students are trained for two hours every day in the evening after their regular class. This academy is manned with a team of trained, certified coach and other support staff.

## Community Health Activities

## Healthcare

In India, majority population reside in remote villages. Inadequate healthcare infrastructure prevents them to enjoy life at its fullest. Many a times, they do not get access to basic health services. JVGCT conducts periodic community health camp at various locations. Medical checkup, consultation and medicines are given at free of cost to the patients. Iron, Calcium, Folic acid and Multi Vitamins supplements are given to improve their general health. These camps were conducted in association with like - minded organisations from the respective localities.

### These medical camps were conducted at

- J. V. Gokal & Co. Pvt. Ltd., SEZ, Falta, West Bengal (for industrial laborers).
- Hotel Sea Bird International, Falta (for hotel employees).
- Katsihi, Dist. East Bardhaman, West Bengal (for village community).
- Mao, Mainpur (for village community).
- Nagzari Waghaldada, Navapur, Nandurbar (for village community).
- Rotary Aadivasi school of Thakurpada, Ambarnath, Dist. Thane (for tribal children).
- Jambhulpada, Dist. Raigad (for village community).
- Alibaug, Dist. Raigad (for village community).

**More than 5600 individuals benefitted by this initiative.**

## Community Health Activities

## Healthcare Activities

### Annual Health Check Up

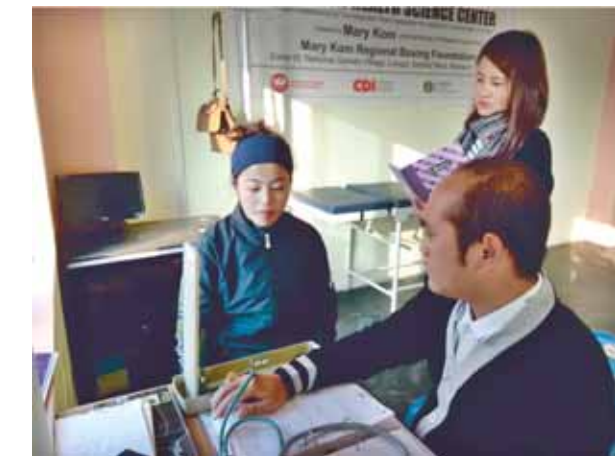

JVCT's InTOUCH Health Science Centre conducted annual medical check-up for the students of Asufu Christian Institute and other educational institutes located in and around Mao, Manipur. The drive was carried out with the aim to create awareness about physical and mental health for school, college students and their family.

### Deworming

Deworming helps to combat malnutrition. Keeping this in mind, JVCT conducted deworming program at different locations.

### Blood Donation

Blood donation is the finest gesture one can make to save a life. Towards this JVCT conducts periodic camp for blood donation at various project locations.

Community Health Activities

Community Health Activities

## Community Health Activities

## Infant & Young Child Feeding (IYCF) Awareness Campaign, Talasari, Dist. Palghar, Maharashtra

Balanced nutrition is a key requirement for good health. **JVGCT** in association with L & T Public Charitable Trust conducted **IYCF** Awareness Campaign in Talasari. This was intended to improve health indicators of the tribal area. Our team implemented this activity to educate mothers (of children below two years of age) and the community about the importance of breast feeding & care, which is to be taken for mothers & new born children under-two years of age. Campaign focused in bring out **Behavioral Change** of the community for which various modes of Information, Education & Communication (IEC) materials were used.

Following activities were conducted.

- Competition on Kitchen Garden, for ASHAs
- Slogan writing competition
- Rangoli Competition
- Role Play Competition
- Counseling for pregnant and breast feeding mothers

# Community Health Activities

## Surgery Camps

Surgery camps are conducted periodically at **JVGCT's** various project locations. Patients residing in difficult regions, those who do not have access to healthcare facilities, with lower economic status and who are not able to go for treatments are benefitted by these camps.

### Speciality Surgery Camps

Project team mobilises elderly people for cataract surgery camps. Special pediatric surgery camp was also conducted for those children who's education and quality of life were affected by the diseased condition. Below mention organisations joined **JVGCT** for making these camps successful.

#### Mao, Manipur (Surgery Camp)

- Collaborative Development International, CA, USA
- Oking Hospital, Kohima, Nagaland
- Community Health Centre, Mao, Manipur
- Rotary Club of Mao, Manipur

#### Dahanu, Palghar, Maharashtra (Surgery Camp)

- Sub - District Hospital, Dahanu, Palghar
- D. Y. Patil Medical College, Navi Mumbai
- Dayanand School of Nursing, Talasari

#### Jambhulpada, Raigad, Maharashtra (Surgery Camp)

- D. Y. Patil Medical College, Navi Mumbai
- Mathura Foundation, Jambhulpada

#### Talasari, Palghar, Maharashtra (Pediatric Surgery Camp)

- Dayanand Hospital, Talasari
- Adfactors PR, Mumbai
- Heligo Charters Pvt. Ltd., Mumbai
- Dayanand Society, Talasari

#### Nandurbar, Maharashtra (Specialty Surgery Camp)

- Medicare Surgical & Dental Hospital, Nandurbar

#### Bhubaneswar, Odisha (Cataract Surgery Camp)

- Sri Sri Parama Premamaya Purusottam Trust
- S. S. Borda Hospital, Bhubaneswar
- Shushrusha Charitable Trust, Bhubaneswar

### Educational Activities

#### Lamp Lighting Ceremony

Dayanand School of Nursing is the only institute in Palghar Block which provides nursing education to the girls from tribal community. To encourage new students, **JVGCT** supported the “**Lamp Lighting ceremony**”. This ceremony was intended to mark the initiation of nursing students towards the profession, where dedication and tireless service is the facemark. Life experience and importance of service were emphasized to the students and their family.

#### Empowering & Equipping Nurses

**JVGCT's** trustees have vision to empower and encourage students from lower socio economic strata. Nurses those who have successfully completed **Auxiliary Nurse & Midwifery (ANM)** training were recognised by giving Certificates & Medical Kits in the presence of their parents

#### Support to Study Tour

Study tour was organised for the students of ACI. Thirty five students from Mao, Manipur along with their faculty visited Pondicherry (Tamil Nadu) and Cochin (Kerala). This trip helped the students gain exposure of culture and heritage of the southern part of India, as this was the first time for them to travel other than northeastern belt of India, **JVGCT** partly supported this activity.

## Community Development

## Community Development Activities

**J. V. Gokal Charity Trust** is committed towards community development by conducting various activities across country. During last financial year we have conducted following activities with community participation.

### **Annadaan (Food Donation) , Support for Differently Abled Children**

With support from **Shree Krishna Foundation, JVGCT** provide monthly groceries to the residential school which is specially for the differently abled children of Parner, Ahmednagar District, Maharashtra

### **Rain Water Harvesting,**

Tagarkheda, Latur District, Maharashtra

Rainwater conservation is a key element of any strategy that aims to alleviate water scarcity. With rainfall patterns changing every year, water scarcity is a problem faced by the rural community. **JVGCT** in association with Tagarkheda village community started working on this issue. After looking at various means, it was decided water conservation through rain water harvesting is the best sustainable means to fight water scarcity. Before the monsoon, pits were dug-up near paddy fields and selected open spaces in the village depending upon the topography of the land/area, so that the rain water can be stored. This was done with active community participation.

## Community Activities

## Community Development Activities

### Kitchen Garden Demonstration & Seed Distribution,

Kitchen garden demonstration was conducted at Jambhulpada village, Raigad district, with technical support from **Rajmata Jijau Mother-Child Health & Nutrition Mission**, Maharashtra. More than seventy five individual (Community elders) from different villages were trained with the help of audio visuals. Seeds, plants and tree saplings were distributed to all participants for replicating similar model in their respective villages.

### Warm Cloth Distribution

Sweaters were distributed to hundred Children of ashramshala (tribal boarding school). **JVGCT** in association with **Noble Hygiene** carried out this activity.

### Tree Plantation & Environmental Sustainability Drive

**JVGCT** is committed towards environment conservation by various means. To contribute to this, we have participated in tree plantation and awareness drive in following locations by involving students/local community.

Community Development Activities

**Support for Anti-Smoking / Anti-Tobacco Drive**  
Anti-Smoking/Anti-Tobacco 'Mega Drive' (campaign) was conducted in Maharashtra in collaboration with Ashwavedh Media Work Production & Ashwavedh Foundation. This campaign involved schools of Maharashtra where students of class 5<sup>th</sup> to 10<sup>th</sup> and their parents participated. Radiant (International) Pvt. Ltd. (under their CSR) joined this activity.. 5000 students have taken pledge against Smoking and use of tobacco in the drive.

**Recognition of Social Entrepreneurs and Change Leaders**  
As a part of community development activity, **JVGCT** in association with Pudhache Paul organisation identified few social entrepreneurs and change leaders, who are from socio-economically underprivileged background. Following individuals were recognised for their contribution to the community.

- Mr. Sagar Patil** – Physically Challenged (a blind person who have developed solar system solution and training youths).
- Ms. Reshma Vallipan** – Working for mentally challenged people.
- Mr. Nitesh Bansode** – a social worker who is running an orphanage in rural area.
- Dr. Rajendra Bharud** – an IAS officer from a very humble background.
- Mr. Shantanu Pathak & Mr. Aditya Kulkarni** –Engineers who developed mobile application for tracking health of pregnant mothers.

## INTERNSHIP

## Internship / Observership / International Student Exchange Programs

**J. V. Gokal Charity Trust** offers field exposure and hand on experience through internship, observership. Students from Public Health, Social Science & Management are given opportunity to work with us at our project locations.

### Interns 2017-18

Ms. Neha Saxena, Chemical Engineering (UPES, Dehradun)

Mr. Vedit Jain, Computer & Communication Engineering, (Manipal Institute of Technology)

Ms. Olga Guseva, (Charles University, Prague, Czech Republic)

Mr. Viktor Laskov, (Charles University, Prague, Czech Republic)

### Observer says...

I am pursuing Medicine at Charles University, Prague, Czech Republic. I had an opportunity to be with **J. V. Gokal Charity Trust** as an observer during Sept 2017. I was able to visit **JVGCT's** Projects at Talasari, MMU & Jagjivan Low Cost Surgery Centre, Nandurbar and Kailash Cancer Hospital, Baroda. I was able to assist in Operation Theater and also could observe how **JVGCT's** different project are helping the communities which are needy. I would like to send many thanks to team **JVGCT** for making this observership possible and for taking care of me during my visit. - **Mr. Viktor Laskov**

I am in my 4<sup>th</sup> year of Medicine at Charles University, Prague. In February 2018, I got an opportunity to be with **J. V. Gokal Charity Trust**, and was able to visit their projects like MCH at Talasari, Mobile Medical Unit at Nandurbar and Jagjivan Low Cost Surgery Centre at Nandurbar. Along with **JVGCT** team I was also able to visit few hospitals like Tata Memorial Hospital-Mumbai, Dayanand Hospital-Talasari and Kailash Cancer Hospital and Research Centre-Goraj. I sincerely thank **JVGCT** for giving me great opportunity. It was a changing moment of my life and will never forget this trip. Thanks again team **JVGCT**. - **Ms. Olga Guseva**

## PARTICIPATION

### Participation in Conferences, Exhibitions and Meetings

- The Global Innovation Forum 2018, Redefining Cancer Care Continuum. Visakhapatnam
- The-Union – Stop TB Conference, Dharmashala
- Nehru Yuva Kendra Youth Development Program, Mumbai University, Kalina
- Capacity Building Workshop, Lonavala, Pune
- Social & Behaviour Change Communication Orientation Workshop by UNICEF, Mumbai

### Knowledge Partners

- Vellore Institute of Technology (VIT)
- Eurasian Federation of Oncology (EAFO)
- Eurasian Cancer Foundation (EACF)
- Eurasian Society of Head & Neck Oncology (ESHNO)
- Eurasian Cancer Research Council (ECRC)
- Ameya Life

Cancer is a major killer globally and **JVGCT** has focal interest in its prevention. Hence our organisation has joined hands with **Eurasian Federation of Oncology (EAFO)**, Russian Federation. This is an autonomous professional organisation uniting Oncologists, Healthcare Professionals, Anti-Cancer & Anti-Tobacco Advocates, Patients, Cancer survivors, Journalists, Policy makers, Oncology & anti-cancer organisations and other concern ones for combating cancer globally. The organisation has its focus on long-term initiatives dedicated to the health and wellbeing of cancer patients, cancer survivors, initiatives that foster innovations, collegiality, cooperation and professional development primarily through educational programs. **JVGCT** is the Indian associate of **EAFO**, to carry out these activities in India and the neighbouring countries.

RESEARCH

**Dr. Somasundaram SUBRAMANIAN, MD (Russia)**  
Founder & CEO  
Eurasian Federation of Oncology  
and EAFO Educational & Research Center

**Dr. C. Padmavathy)** MBA, Ph. D  
Asst. Professor (Sr.), VIT University Vellore

Research

**J. V. Gokal Charity Trust** Project Team is exploring possibilities of collaborative research. These are following projects in preliminary discussion:

- Validation of a new test for detecting Breast Cancer
- Breast Cancer Screening of women from China, India, Russia, Brazil, South Africa and Thailand under the auspices of WHO IARC (World Health Organisation - International Agency for Research on Cancer).
- KAP (Knowledge, Attitude and Practices) about Self Breast Examination related studies among rural parts of India.

**Research in association with Vellore Institute of Technology (VIT, Vellore)**

Reproductive health is a universal concern, yet it is specifically important to women during reproductive years. It is a crucial part of general health of any women. It is essential to take steps to protect reproductive organs from cancer. Reproductive cancers such as breast cancer, cervical, uterus, vulva, endometrial and ovaries cancer are common among women. Among these cancers, breast cancer has received highest priority as the rates of this cancer are more in India. Hence, breast cancer need adequate attention and regular screening for early diagnosis to prevent higher mortality rates. The purpose of this project is to identify the relationships between value drivers of women and their breast screening beliefs. The study also aims to examine a comprehensive model containing the relationships between socio-ecological variables and breast cancer screening beliefs. This study would provide various implications for pubic health policy makers. (Proposal by Dr. C. Padmavathy)
